R+V Re Appoints Marina Sokolova as Chief Underwriting Officer

Wiesbaden, 26.03.2025

Marina Sokolova, who has been with R+V Re for over 21 years, will take over the responsibilities of the Chief Underwriting Officer on July 1, 2025 and will become a member of R+V Re's executive team. She will succeed Andreas Beckmann, who has been with the company for over 30 years and since 2012 in the position of the Chief Underwriting Officer. He is taking the opportunity of entering the release phase of the company's partial retirement scheme, before retiring.

Marina Sokolova has held various management positions within R+V Re since 2014 – most recently as Regional Chief Underwriting Officer for Continental Western Europe, Africa and Latin America. Sokolova holds an MBA in Insurance from the University of Leipzig.

Dr. Christoph Lamby, Member of the Board of Management for R+V Re at R+V Versicherung AG, confirms: "With her strategic skills and her proven ability to innovate, we see Marina as the perfect candidate to continue the development of R+V Re and enhance our services for our partners worldwide. Her appointment from within our own ranks guarantees stability in the future direction of the company."

Andreas Beckmann, who will continue working for R+V Re as a management consultant until the end of 2026, emphasizes: "It fills me with great joy to hand over the helm to Marina Sokolova. I am certain that she will use her expertise and strategic foresight to successfully continue the development of R+V Re."

"I am deeply honoured to take on this responsibility. I look forward to working with our dedicated underwriting team to continuously enhance R+V Re's reinsurance portfolio, ensuring its profitability and resilience, and deliver the best possible service to our partners worldwide", says Marina Sokolova about her new position. "We see ourselves as a financially strong and reliable partner, striving to serve our clients with consistency, technical expertise, and a spirit of innovation."

With the appointment of Marina Sokolova as Chief Underwriting Officer, R+V Re is building on its successful development in the past decades.
